****Important Notice!***

Effective January 1, 2008, the Township no longer notifies applicants and engineers of the need to file an extension letter for pending subdivision and land development applications. It is the responsibility of an applicant or an applicant's engineer to file for any extensions concerning subdivision and land development applications without prior notice from the Township.

If a properly executed, written extension is not received prior to expiration of time for the Board to take action on pending plans, the Springfield Township Planning Commission will address the plan and make a recommendation to the Board of Supervisors in accord with the most recent Township engineer review letter. The Board will then take action on the plans giving consideration to the deficiencies in the Township engineer's most recent review letter.
